Courses Being Provided:

AC Administrator

April 11-12, 2022

This administrative ACO class is designed to be an extension of the Advanced ACO class to help more seasoned ACOs move forward in their careers as well as help managers tasked with overseeing an animal control unit. This is the third level of training for the 3 levels of ACO.

DSHS approved for 16 hours CEU

LRCA Training

April 13, 2022

This course is designed to be a comprehensive understanding of the role and responsibilities of a Local Rabies Control Authority. It is ideally suited for individuals who have been appointed LRCA, are going to be appointed, have been designated to similar roles by the LRCA, or supervisors who oversee the Animal Control Unit.

DSHS approved for 8 hours CEU

Shelter Standards & Management

April 14, 2022

Managing an animal shelter has its own unique challenges different from any other management job. This course will cover TXHSC 823, 826, 828, & TAC 169 and how those laws affect shelter construction and animal management. In addition, we will review sheltering laws for TX and how to successfully implement them to ensure not only a passed inspection, but to provide the best level of care to the animals in your shelter. We will also discuss current and emerging animal management philosophies and the tools to navigate them.
